Privatel Inc. for Fordham University
PrivaTel Incorporated

As a consumer locked in a 75 year agreement and currently suffering from these types of agreement. I have to ask; Why Privatel is filing comments on behalf of his clients? As you well know if you are admitted to a hospital you as a patient (“customer”) get bill for telecommunication. Also if you enroll as a student (“customer”) you pay telecommunication fee. Once again we as consumer pick up the tab while they arrange contracts with substantial kickbacks.

The fact is Privatel is making money and some of their customers are happy. That doesn’t not mean the end user is getting a deal. Patients and students are captive audience “Exclusivity”.

I respectfully ask the Commission, to bring relieve to consumers by including, Exclusive Marketing Arrangements and any type of Bulk Service to be null and void.

Respectfully,
M. Castro
